**Peninsular Cylinder Company**

**Longer Lasting Cylinders Since 1949!**

---

**Products**
- Air Cylinders - Heavy, Medium & Light Duty
- Hydraulic Cylinders - High & Low Pressure
- Special Cylinders - Non Standard Cylinders
- Cylinders Accessories - NFPA & Metric
- Repairs & Rebuilds - All Cylinder Makes & Models
- GM, Ford & Chrysler Standard Cylinders

**Services & Features**
- Quick Delivery & Courteous Customer Service
- Internally Lubricated for Life - Includes Bearing Cartridge
- Improved Seals & Cushion Design
- In-Port Mounted Proximity Switch Sensing (without spacers underneath the switch)
- Linear Transducer Sensing - for mid stroke position feedback
- Magnetic Piston Sensing

---

**Air Cylinders (NFPA)**
- All NFPA Standard Mounting Styles & Rod Sizes
- Lifetime Internal Lubrication System
- Improved Longer Lasting Seals
- Improved Adjustable Cushions
- Repairable Rod Cartridge

**MH Series** - Heavy Duty NFPA Air Cylinder
- (250 PSI Rated)
- 1 ½” to 24” Bore Sizes
- All Steel Heavy Duty Construction
- Designed for Destructive Applications

---

**Hydraulic Cylinders (NFPA)**
- All NFPA Standard Mounting Styles & Rod Sizes
- All Steel Heavy Duty Construction
- Improved Longer Lasting Seals
- Improved Adjustable Cushions
- Repairable Rod Cartridge

**HP Series** - High Pressure NFPA Hydraulic Cylinder
- (5,000 PSI Rated - 3,000 PSI Working Pressure)
- 1 ½” to 20” Bore Sizes
- Teflon Backup Seals at all Pressure Points
- Designed for Destructive Applications

---

**LM Series** - Medium Duty NFPA Air Cylinder
- (250 PSI Rated)
- 1 ½” to 12” Bore Sizes
- High Quality, Light Weight & Longer Lasting
- Aluminum Heads & Sleeve

**LH Series** - Low Pressure NFPA Hydraulic Cylinder
- (Up to 1,500 PSI Maximum Working Pressure)
- 1 ½” to 6” Bore Sizes
- Larger Diameter Tie Rods & Thicker Tube Walls
- Improved Rod Cartridge with a Teflon Backup Seal

Metric Air & Hydraulic Cylinders

Air Cylinders (METRIC)
- Conforms to ISO 6431 & VDMA 24-562 Standards
- Lifetime Internal Lubrication System
- Improved Longer Lasting Seals
- Improved Adjustable Cushions
- Repairable Rod Cartridge

**IMH Series** - Heavy Duty METRIC Air Cylinder

(17 Bar Rated Pressure = 250 PSI Rated Pressure)
- 32 mm to 320 mm Bore Sizes
- All Steel Heavy Duty Construction
- Designed for Destructive Applications
- Bolt on Cylinder Mounts

Hydraulic Cylinders (METRIC)
- Conforms to ISO 6020-2 & 6020-3 Standards
- All Steel Heavy Duty Construction
- Improved Longer Lasting Seals
- Improved Adjustable Cushions
- Repairable Rod Cartridge

**IHP Series** - High Pressure METRIC Hydraulic Cylinder

340 Bar Rated Pressure = 5000 PSI Rated Pressure - 210 Bar Working Pressure = 3000 PSI Working Pressure
- 40 mm to 500 mm Bore Sizes
- Improved Teflon Backup Seals at all Pressure Points
- Designed for Destructive Applications

**ILM Series** - Medium Duty METRIC Air Cylinder

(17 Bar Rated Pressure = 250 PSI Rated Pressure)
- 32 mm to 320 mm Bore Sizes
- Aluminum Heads & Sleeve
- High Quality, Long Lasting Aluminum Cylinders
- Bolt on Cylinder Mounts

Field Service and Engineering Support Just for You!

We understand the importance of technical assistance and the availability of products and repair parts - that’s why we have high quality distributors and technical representatives located throughout the country.
