

**PENINSULAR[®]
CYLINDER CO.**

Air & Hydraulic Cylinders (NFPA)

Air Cylinders (NFPA)

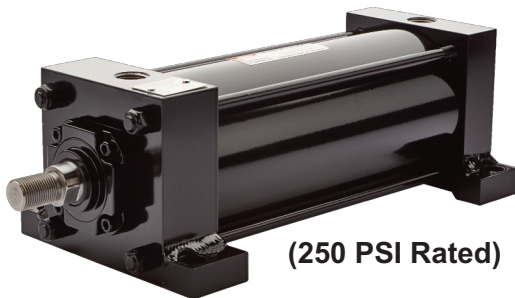

All NFPA Standard Mounting Styles & Rod Sizes
Lifetime Internal Lubrication System
Improved Longer Lasting Seals
Improved Adjustable Cushions
Repairable Rod Cartridge

Hydraulic Cylinders (NFPA)

All NFPA Standard Mounting Styles & Rod Sizes
All Steel Heavy Duty Construction
Improved Longer Lasting Seals
Improved Adjustable Cushions
Repairable Rod Cartridge

Heavy Duty Air

MH Series

(250 PSI Rated)

1 1/2" to 24" Bore Sizes
All Steel Heavy Duty Construction
Designed for Destructive Applications

High Pressure Hydraulic

HP Series

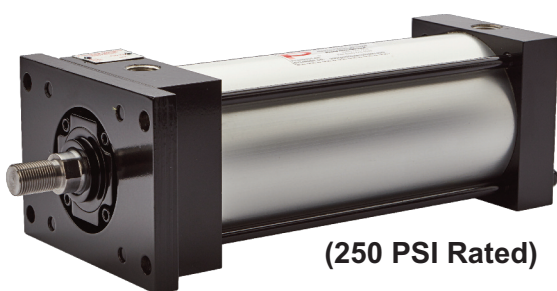

(5,000 PSI Rated - 3,000 Working Pressure)

1 1/2" to 20" Bore Sizes
Teflon Backup Seals at all Pressure Points
Designed for Destructive Applications

Medium Duty Air

LM Series

(250 PSI Rated)

1 1/2" to 12" Bore Sizes
High Quality, Light Weight & Longer Lasting
Aluminum Heads & Sleeve

Low Pressure Hydraulic

LH Series

(Up to 1,500 PSI Maximum Working Pressure)

1 1/2" to 6" Bore Sizes
Larger Diameter Tie Rods & Thicker Tube Walls
Improved Rod Cartridge with Teflon Backup Seal

800-526-7968

27650 Groesbeck Highway • Roseville, MI 48066

Local: 586-775-7211 • Fax: 586-775-4545 • www.peninsularcylinders.com • sales@peninsularcylinders.com

Air & Hydraulic Cylinders (Metric)

Air Cylinders (Metric)

Conforms to ISO 6431 & VDMA 24-562 Standards
Lifetime Internal Lubrication System
Improved Longer Lasting Seals
Improved Adjustable Cushions
Repairable Rod Cartridge

Hydraulic Cylinders (Metric)

Conforms to ISO 6020-2 & 6020-3 Standards
All Steel Heavy Duty Construction
Improved Longer Lasting Seals
Improved Adjustable Cushions
Repairable Rod Cartridge

Heavy Duty Air

IMH Series

(17 Bar Rated Pressure = 250 PSI Rated Pressure)
32 mm to 320 mm Bore Sizes
All Steel Heavy Duty Construction
High Quality, Long Lasting Aluminum Cylinders
Bolt On Cylinder Mounts

High Pressure Hydraulic

IHP Series

(340 Bar Rated Pressure = 5,000 PSI Rated Pressure)
(210 Bar Working Pressure = 3,000 PSI Working Pressure)
40 mm to 500 mm Bore Sizes
Improved Teflon Backup Seals at all Pressure Points
Designed for Destructive Applications

Medium Duty Air

ILM Series

(17 Bar Rated Pressure = 250 PSI Rated Pressure)
32 mm to 320 mm Bore Sizes
Aluminum Heads & Sleeve
High Quality, Long Lasting Aluminum Cylinders
Bolt On Cylinder Mounts

Products

Air Cylinders - Heavy, Medium & Light Duty
Hydraulic Cylinders - High & Low Pressure
Custom/Special Cylinders - Non Standard Cylinders
Cylinders Accessories - NFPA & Metric
Repairs & Rebuilds - All Cylinder Makes & Models

Services

In-Port Mounted Proximity Switch Sensing
Linear Transducer Sensing - for mid stroke position feedback
Magnetic Piston Sensing

Online Configurator
